

Souderton Area Online Academy

Our Students, Our Community, Our Teachers – In a Virtual Classroom
A full-time, online option for 2020-21

Souderton Area Online Academy students learn in a virtual classroom with other Souderton students, in classes taught by our teachers.

- Our program is designed to ensure the continued success of our students.
- Students have access to all of our supports and services.
- Students can participate in extracurricular activities with district peers.
- Students with an IEP/GIEP or 504 Plan are supported by Souderton Online Academy.
- Technology and tech-support is provided for each student.
- Students who remain in the program will earn a Souderton diploma.

Souderton Area Online Academy is a comprehensive, full-time option.

- It can serve as a short-term solution during the pandemic, or become a longer-term option for students who enjoy the flexibility.
- Souderton Area Online Academy is not pandemic remote learning from Spring 2020; This is a planned, full-time cyber option.
- Students may choose to easily transfer back to their brick and mortar school at semester/trimester breaks.

Elementary

- Students will need a supportive adult to set schedules and routines, and support student learning.
- Teachers will work to provide socialization and warmth in an online format.
- Students receive daily live interaction with teachers and classmates, coupled with recorded, flexible instruction.

Middle/High School

- A mix of synchronous (live) and asynchronous (recorded) learning, with an emphasis on flexible, on-demand teaching and assignments.
- Students will have access to a wide variety of courses, and teachers will work to differentiate to meet the diverse needs of our learners.
- Students may still need the support and guidance of an adult at home to keep them on task with learning.

Committed to providing high quality, personalized, flexible learning experiences that meet the needs of the whole child and your family, especially during the pandemic.

Join our Online Community as we continue to grow to meet our students' changing needs – but remain within the District.
